

DURAWELD 1.5KW

1.5 KW

360°precision welding

Duraweld Laser adopts 360° welding technology, which can achieve efficient and accurate positioning, complete difficult welding at high speed, and achieve minimal post-processing and uniform welds.

Duraweld 1.5 series laser handheld welding is our best-selling laser welding equipment. The product is very mature and has a good reputation. We provide the most suitable welding processing solutions for various industries. The machine welding efficiency is 2-10 times that of traditional welding; the weld is formed quickly; there is less smoke during the welding process; and the welding precision is high.

SPECIFICATION	
Equipment Model	JFW-M1500
Laser Type	FIBER LASER
Laser Power	1500W
Total Power	3000W
Laser Wavelength	1064-1080nm
Pulse Frequency	5000-10000Hz
Welding Width	0.2-3mm
Cooling Type	Water Cooling
Laser Source Brand	EVERFOTON 15H-E
Spot adjustment range	0-5mm
Effective light aperture	16mm
Optical fiber interface	QBH
Collimating focal length	50mm
Focal length	150mm
Maximum wire feed speed	80mm/s
Control Panel	Touch Screen
Fiber Cable Length	10m
Auto Wire Feeder Net Weight	16.2kg
Machine Package Dimension	147*65*93cm
Machine Package Weight	160kg
